

## EPJ N

### Nuclear Sciences & Technologies

*The European Journal of Physics N (EPJ N)* is a **New Open Access Journal** for the communication of original research, ideas and developments in all areas of the peaceful use of nuclear energy, as well as on applications of nuclear particles and radiation.

*EPJ N* aims to serve its academic community, industry professionals, research institutions, government agencies and policy-makers concerned with the research, technological development and application of nuclear science and technology.

This journal is edited in partnership with the **SFEN** (*French Nuclear Energy Society*).

*EPJ N* content includes:

- Review articles
- Original research articles
- Letters

ePub digital format  
for eReaders and tablets

## Keys Elements

- ▶ **No publication charges** for the first year
- ▶ **Rigorous peer review** and **strict ethical policies** following the COPE code of conduct ([www.publicationethics.org](http://www.publicationethics.org))
- ▶ Compliance with all **open access mandates**
- ▶ **Author services**: performant search engine, article metrics, bookmarking...
- ▶ **Fair author rights**: CC-BY Creative Commons license
- ▶ **Reader services**: free e-mail alerts and RSS Feeds, CrossRef® and DOI

## Editors-in-Chiefs

Christophe Béhar  
CEA, Director of Nuclear Energy, France  
[Christophe.behar@cea.fr](mailto:Christophe.behar@cea.fr)

Bernard Bonin  
CEA, Deputy Scientific Director, Nuclear Energy  
Division, France  
[bernard.bonin@cea.fr](mailto:bernard.bonin@cea.fr)

## Associated Editors

### General Issues related to Nuclear Power Utilization

- S. Andrieux - EDF, France
- F. Billon - Direction technique ONET Technologies, France
- M. Sperandio - AREVA, France

### Nuclear Reactor Physics

- G. Bruna - IRSN, France
- E. Merle-Lucotte - CNRS, France
- E. Minguez - Universidad Politécnica de Madrid, Spain
- L. Cizelj - Jozef Stefan Institute, Slovenia
- A. Nicolas - CEA, Nuclear Energy Division, France
- J. Ragusa - Texas A&M University, United States

### Reactor Instrumentation and Control, Human-Machine System

- A. Lyoussi - CEA, Nuclear Energy Division, France

### Thermal Hydraulics

- M. Giot - Université Catholique de Louvain, Belgium
- G. Jimenez - Universidad Politécnica de Madrid, Spain
- J. Segré - CEA, Nuclear Energy Division, France

### Nuclear Materials and Nuclear Fuels

- S. Bechta - KTH Royal Institute of Technology, Swedish
- R. Konings - JRC Institute for Transuranium Elements Germany
- P. Yvon - CEA, Nuclear Energy Division, France

### Operational Management of Reactor, Nuclear Safety Engineering

- J. Klepac - Division of Nuclear Safety, VUJE Trnava Inc., Slovakia
- D. Popov - Safety Analysis Section, Engineering Support Department, NPP Kozloduy, Bulgaria
- Marco Ricotti Politecnico di Milano, Italy

### Reactor Chemistry, Radiochemistry, Fuel Reprocessing, Safeguards Technology

- J. P. Glatz - JRC Institute for Transuranium Elements, Germany
- Ch. Poinssot - CEA, France

### Radioactive Waste Management

- I. Hagenlocher - Kraftanlagen Heidelberg, Germany
- F. Plas - Andra, Direction Scientifique, France

### Fusion Energy Engineering

- T. Troev - Bulgarian Science Academy, Bulgaria

### Health Physics and Environmental Science

- F. Deconinck - SCK CEN, Belgium
